

Senior data & AI engineering, *delivered lean.*

Manizh Consulting designs, builds, and operates data platforms, AI systems, and decision dashboards for organizations where the data is sensitive and the stakes are high.

01 • Data Engineering & Modern Warehouse

Cloud data platform architecture, pipeline engineering, migration, and data quality at scale — Snowflake and Databricks on Azure, AWS, and GCP. Governed, auditable data foundations built for regulated environments.

02 • Modern Business Intelligence & Dashboarding

Mission and executive dashboards, KPI systems, and operational reporting in Power BI, Tableau, and Sigma — engineered for decision speed, data lineage, and accuracy under audit.

03 • Vision-to-Production AI

Applied AI and ML delivered past the demo stage: LLM-based analysis and automation, agentic workflows, document intelligence, and MLOps — deployed into production with monitoring and governance.

04 • DevSecOps & Cybersecurity Engineering

Secure SDLC, CI/CD hardening, cloud security posture, and compliance-aligned engineering practices. Active enterprise cybersecurity delivery; senior security engineers embedded across delivery teams.

DIFFERENTIATORS

- Senior-only bench — 15–18 senior data & AI engineers plus dedicated DevSecOps; no pyramid staffing.
- Architecture-led delivery: the people who design the system build it. Fixed-bid or T&M, priced to outcomes.
- Delivery experience across premium retail, financial services, and healthcare — regulated-data disciplines by default.
- Small-business agility: direct principal access, days-not-months mobilization, teaming-friendly.

Representative Past Performance

- National apparel & brand-management enterprise — full analytics-platform takeover: data engineering leadership, warehouse modernization, and executive reporting across four workstreams.
- Enterprise cybersecurity engagement — two senior security engineers embedded in active delivery (2026).

Company Data

LEGAL NAME	Manizh Consulting LLC · Massachusetts · est. 2018
UEI	WBG1SMC1LQK4
CAGE	9SNY7
SAM.GOV	Active registration
HQ	162 Algonquin Trl, Ashland, MA 01721
SIZE	Small business under all listed NAICS

NAICS Codes

541512	Computer Systems Design Services	Primary
541511	Custom Computer Programming	
541519	Other Computer Related Services	
518210	Data Processing & Hosting	
541611	Management Consulting	

Certifications

Small business (SBA self-certified in SAM.gov). NMSDC MBE and Massachusetts SDO MBE certifications in preparation.

Platforms & Tooling

Snowflake	Databricks	Azure
AWS	GCP	Power BI
Tableau	Sigma	Python
dbt	Kubernetes	Terraform
